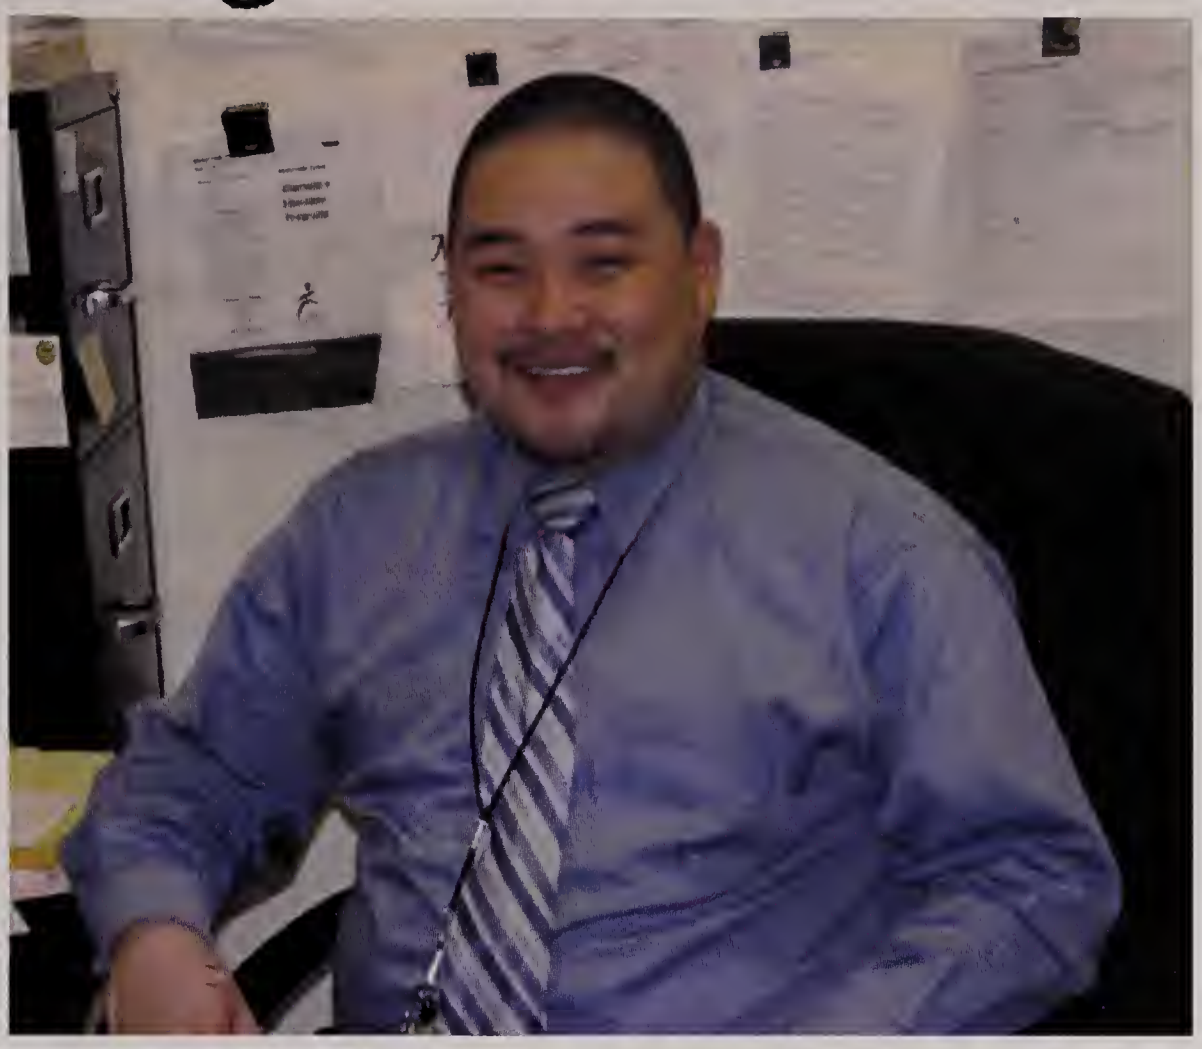
We Would like to dedicate this yearbook to

Anthony Jacobs

The best english teacher we've had.
Thank you for your guidance & support !

Media Communications & Technology High School



Derr Class of 2007

You will always be the class that named the Bodega, that celebrated Pi Day, that went on the first Washington D.C. trip. You are talented in so many ways. Yes, I will remember arguing with you about your cell phones, harping on your tardies, reminding you that school starts at 7:20 and not 7:35 (or 9:45... or 11:10), but I will also remember when you showed me your college acceptance letters, or asked me to read your college essay, or one of your teachers came to tell me an amazing story about you from class. Thank you for doing the work, for getting up on the mornings you didn't want to come, for persisting through any challenge that came up so you could be graduating and moving on. You will always be part of Media.

memories

**CLASS OF 2007 **

As we walked in this building we all came in alone,
Now we have a whole crew that we'll never leave alone.
We've made countless memories as we strutted through the halls.
Between skipping class and leaving at lunch we all had ourselves a ball.
We came in as immature teens as we leave mature adults, still filled with the true kid that never left us.

So many struggles we have went through to make it through this year, but now we
Can all cheer HOORRAY now that we're almost there.
We've shared many tears as we endured each others pain, laughs at the jokes that were made we all grew to know each other as family.

Now its time to endure our own journey
Many of us chasing different dreams and going different paths.
As we say our last goodbyes we hold onto the memories that we share. Alone we came, but together we leave.
Congratulations to the class of "07"!!!

OUR LAST FOUR YEARS

It has been a long four years
Now the time has finally arrived
As we cross the stage
We shed tears from our eyes
The light shines strong & bright on the road we are to lead
Leading us straight to our destinies
We've come a long way, as you can see
We all stand together, proud as can be
We all shared the good & the bad times
Friendships' growing as time continues to fly
Our last day together giving us a reason to cry
However our friendships will stay strong giving us a reason to smile
Class of "07", this is our year
As we walk out the door we faced many fears
We'll come together like friends we are
Realize our dreams to reach the stars
Thanking our families for helping us this far
For teaching us that life gives us scares
Thanking the teachers who helped us succeed
Kept us on the path that helped us proceed
Proceed to a life that is much greater
To all my fellow seniors I won't say goodbye I'll just say you a later.

-Anthony Ramsey Jr.

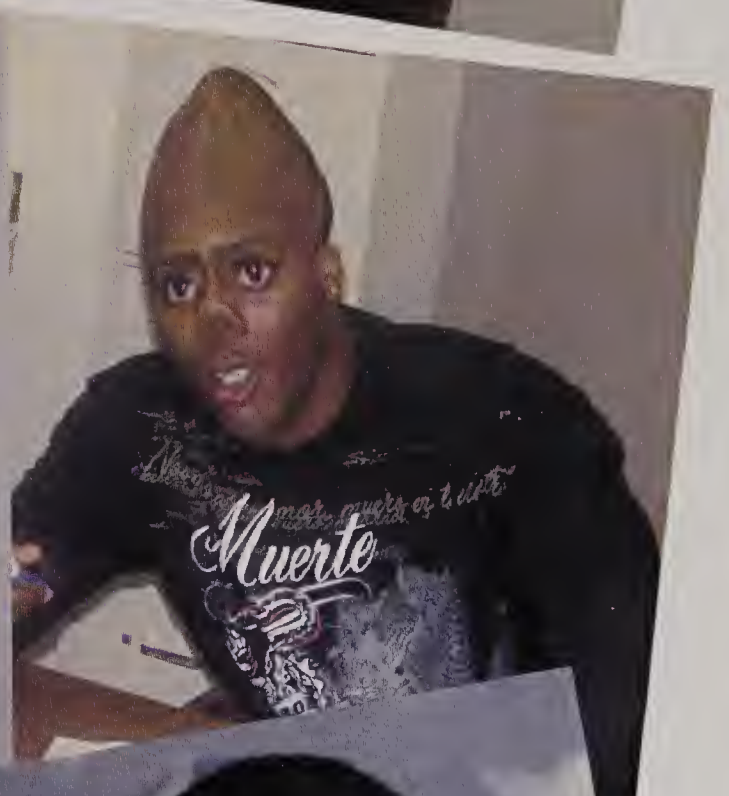
CLASS OF 2007

GUESS WHO!



THE BEGINNING OF THE END

We came in as young men & women
Thinking that we are the new show stoppers of our High School beginning
Little did we know we was entering the first step of our new lives
A life that prepares us for the future
High School was the best thing ever
Met new friends and had attitudes of whatever
Going to your first class meeting more people
Entering your sophomore years saying what's up with our new English teacher
Coming to school trying to dress to impress
But when you go to your history class your teacher asks "where is your term paper?"
You come up with the excuse of "Oops I left it on top of my new channel chest"
We laughed, joked, and cried together
And over the years we hoped that the memories would last forever.
Now its time for the year 2007 and we are proud to call ourselves mature men and women
2007 means we are off to a new world of people
The end of your old life and the start of a new life
We are ready for any barrier that comes our way
Although we thought that it would never end
I am grateful to say that my peers and I,
ARE READY FOR THE BEGINNING OF THE END!!!

-Deja Walker

Recognition

Favorite Teacher

Mrs. Stavrianidis

The class of 2007 will like to thank you for being there for us throughout the year, helping us finish our college applications, and talking to us when you where really yelling, for hitting and pinching us throughout the day, and just being there for us in general. Thank you again. –The Class of 07
